Vorwort

Die Rekordanerkennung ist ein elementares Recht und wichtiger Aufgabenbereich der nationalen und internationalen Dach- bzw. Spitzenverbände.

Die Definitionen, Kriterien und Änderungen für die Welt- und Kontinentalrekorde werden im Fallschirmsport durch die zuständige Air Sports Commission, der International Skydiving Commission (ISC), der Fédération Aéronautique Internationale (FAI), dem internationalen Dachverband der Luftsportverbände festgelegt. Die Administration erfolgt zentral durch die FAI. Nationale Rekorde werden vollständig durch den deutschen Spitzenverband für den Fallschirmsport administriert. Ein Rekord ist somit eine von einem Dachverband erfolgte Anerkennung einer Leistung.

Ungeachtet der unterschiedlichen Zuständigkeiten sind Rekorde und hierbei insbesondere Weltrekorde zunächst und vor allem ein Spektakel.

Rekorde bezeichnen die beste jemals erzielte Leistung in einer bestimmten Disziplin innerhalb einer Sportart. Die Bedeutung von Rekorden für die Sportart entspricht der persönlichen Bestleistung für die Athlet*innen. Sie sind Bestandteil der Historie einer jeden Sportart bzw. Karriere und zeigen im zeitlichen Verlauf die maximal mögliche Entwicklung des Leistungsvermögens der Athlet*innen. Rekorde und persönliche Bestleistungen produzieren Ansporn und Motivation, um die individuellen, Team- und Mannschaftsleistungen stetig zu steigern. Sie haben Vorbildfunktion und schlagen bis auf den Breiten- und Freizeitsportbereich in den einzelnen Vereinen und den einzelnen Sportler*innen durch.

Ihre Daseinsberechtigung liegt allein schon darin begründet, dass durch ihre reine Anwesenheit der Wille und das Bedürfnis besteht, diese zu brechen. Sie sind Gradmesser und Orientierungspunkt, um die gezeigten Leistungen im nationalen und internationalen Kontext einordnen zu können.

Sie können für Athlet*innen ebenfalls unter ökonomischen Gesichtspunkten bedeutsam werden. Für die Spitzenverbände sind Rekorde und persönlichen Bestleistungen für die Berichterstattung, Öffentlichkeitsarbeit und das Marketing von entscheidender Bedeutung. Auch für Zuschauer sind Rekorde Orientierungspunkte, um die Leistungen der Athlet*innen, aber auch um den Wert und die Qualität des Wettkampfes einzustufen zu können.

Rekorde und persönliche Bestleistungen sind daher für jeden Wettbewerb essenziell und sollten dokumentiert werden.

Trotz der vielen Vorteile für Zuschauer, Athlet*innen und Verbände muss angemerkt werden, dass Rekorde auch eine zweite negative Seite dergleichen Medaille innehaben. In allererster Linie müssen Rekorde objektiv vergleichbar sein. Das stößt allein schon an seine Grenzen, indem die Rahmenbedingungen sehr unterschiedlich sind. Als Beispiele sind die unterschiedlichen Platzhöhen der Wettkampfstätten, die schwierigen und wechselnden meteorologischen Bedingungen, langsame bzw. schnelle Auslosungen in den einzelnen Disziplinen, die Genauigkeit der verschiedenen zugelassenen Schiedssysteme und die fehlerbehaftete individuelle Bewertung der Schiedsrichter mit dem bloßen Auge zu nennen.

Das bedeutet, dass bei dem Vorhandensein gewisser Rahmenbedingungen unabhängig von dem individuellen Leistungsvermögen Rekorde und persönliche Bestleistungen nicht erreicht werden können. Neben diesen Kriterien die von den Athlet*innen nicht beeinflusst werden können, wird die individuelle Leistungsfähigkeit immer mehr durch technologische und wissenschaftliche Unterstützung durch den Einsatz von Material, Technik und Verfahren aber auch durch die finanziellen und organisatorischen Möglichkeiten der Verbände und der Athlet*innen fremdbestimmt.

Die Frage der Glaubwürdigkeit ist ebenfalls von Bedeutung und spiegelt den Verdacht, dass die gezeigten Leistungen mittels medikamentöser Unterstützung erreicht wurden, wider. Da der Entlastungsbeweis nur durch Doping-Kontrollen erbracht werden kann, besteht bei ausstehenden Kontrollen die Gefahr, dass ein Gefühl der Ungewissheit zurückbleibt.

Grundsätzlich ist es daher entscheidend, die ursprüngliche sportliche Idee, die auf dem „Hier-und-Jetzt-Prinzip“ beruht hervorzuheben. Der Gewinn einer Weltmeisterschaft, Europameisterschaft oder eines anderen Wettbewerbs bzw. das Erreichen von Medaillenplätzen ist immer wichtiger als der Vergleich der gezeigten Leistung mit den bestehenden Rekorden.

Ganz gleich welche emotionale Qualität Rekorde besitzen, für diejenigen, die sie live miterleben, sind sie faszinierende und bleibende Erinnerungen.

1.2 Aufbau der Rekordübersicht

Die nachstehende Übersicht zeigt zuerst die Competition Rekorde von Indoor Skydiving und Outdoor Skydiving. Im Anschluss werden die Performance Rekorde (derzeit nur Outdoor Skydiving) aufgeführt. In diesen Rekordkategorien und Rekordklassen können nationale und internationale Rekorde aufgestellt werden. National können die gleichen Rekorde wie international aufgestellt werden. Es gibt keine Rekorde in den nationalen Anfänger-, Einsteiger- und Fortgeschrittenenklassen der einzelnen Disziplinen. Zuletzt sind die überholten Competition und Performance Rekorde gelistet.

Auf die Darstellung des Status in den einzelnen Rekorden wird verzichtet, da nur aktuell gültige Rekorde (Ratified – current record) oder unveränderbare Rekorde (Ratified – retired by changes of the sporting code) aufgeführt sind. Nur in vereinzelt Fällen, wo noch keine Rekorde ratifiziert wurden, wurde der Status „Dossier under review“ hinter dem Feld „Performance“ angegeben, um eine Orientierungshilfe über die gezeigten Leistungen bereitzustellen. Es ist aus dieser Übersicht daher nicht ersichtlich, inwieweit bereits neue Rekordanträge bei der FAI eingegangen sind. Weiterhin können überschriebene Rekorde (Ratified – superseded since approved) aus der Übersicht nicht entnommen werden. „Alt-Rekorde“ werden zukünftig in der Geschäftsstelle des DFV separat archiviert.

Competition Rekorde können nur bei nationalen Meisterschaften oder bei internationalen Sportevents, die im FAI-Sportkalender gelistet sind, erreicht werden. **Performance Rekorde** können auch außerhalb von Wettbewerben erzielt werden. Einzelheiten zur Anmeldung, Durchführung, Anzahl der Schiedsrichter, Schiedssysteme, etc. sind dem FAI Sporting Code General Section, dem FAI Sporting Code Section 5 – Skydiving Class G – Parachuting and Indoor Skydiving und den jeweiligen Competition Rules der einzelnen Disziplinen in der jeweils gültigen Fassung zu entnehmen. Für nationale Rekorde sind zudem die Wettbewerbsordnung Deutsche Meisterschaften (WDM) und die Schiedsrichterordnung (SRO) in der jeweils gültigen Fassung maßgeblich. Eine Übersicht aller Rekorde mit aktuellem Bearbeitungsstand (Status) beinhaltet die Datenbank der FAI <https://www.fai.org/records>. Die Originaldokumentation in der Datenbank der FAI ist ausschlaggebend für die europäischen Rekorde und Weltrekord und hat Vorrang vor der DFV-Rekordübersicht. **Überholte Rekorde** (retired) sind Rekorde, die aufgrund von Regeländerungen nicht mehr übertroffen werden können.
