

2024 Interim Bureau Decisions

DATE	IBD No.	SUBJECT	DECISION
10/10/2024	2024/14	<p>The Chair of the Formation Skydiving Committee has requested approval to change Block 12 of the VFS divepool with immediate effect so that teams can train the new block before the next Championships in 2025. In late 2022, it was shown that block 12 in the VFS divepool could be performed in a manner that would bypass the intent of forcing a swap. In an attempt to rectify this, the block was changed in 2023 to have one of the pieces perform a 540 degree turn instead of 180 and it was expected that this would force the swap as intended. Unfortunately, this was not the case and competitors have expressed their dissatisfaction with the change as one piece effectively does nothing while the other performs the 540 turn.</p> <p>This new block will be included in the 2025 edition of the FS rules This is the pictogram of the new block.</p> <div style="display: flex; justify-content: space-around; text-align: center;"> <div data-bbox="510 715 611 738">Original 12</div> <div data-bbox="763 715 864 738">Current 12</div> <div data-bbox="994 715 1106 738">Proposed 12</div> </div> 	<p>The ISC Bureau has unanimously taken the decision to allow the block change in the FS rules for the 2025 version with immediate effect.</p>
